Professional Summary

Results-driven Civil Engineer and Project Manager with over 20 years of experience across infrastructure, building, and public works projects in the Middle East. Skilled in construction supervision, project execution, quality control, and safety management. Demonstrated success in managing large-scale projects from design to completion, ensuring on-time delivery within budget and compliance with Gulf standards and safety codes.

Professional Experience

Mansor Engineering Office – Projects Manager (2023–2024)

- Supervised on-site operations, quality assurance, and finishing works according to approved drawings and specifications.
- Ensured compliance with Gulf construction standards, safety codes, and project schedules.
- Coordinated between design teams, contractors, and suppliers to ensure smooth project execution.

Modeco Contracting Co. – General Manager (2016–2022)

- Directed multiple infrastructure and building projects with full responsibility for budgeting, scheduling, and delivery.
- Led cross-functional teams, managed subcontractors, and optimized resource allocation to meet project targets.
- Oversaw contract negotiations, tendering processes, and client relations to maintain operational excellence.

Abo Khadra Contracting Office – Projects Manager (2012–2015)

- Managed engineering teams and site supervisors ensuring quality control and adherence to safety standards.
- Developed and monitored project schedules and progress reports.

CHF International – Field Engineer (2011)

- Conducted daily site inspections to ensure compliance with specifications, materials testing, and safety procedures.
- Provided detailed site reports to management and stakeholders.

International Relief & Development (IRD) – Safety & Environmental Manager (2010)

- Developed and implemented safety management systems across multiple construction sites.
- Conducted audits, toolbox meetings, and incident investigations to improve site safety culture.

Consulting Engineering Center (CEC) – Quality Control Manager (2009)

- Led quality control activities for Al Kafriyat Road Project (4 km) under the Ministry of Public Works & Housing.
- Monitored materials testing, documentation, and adherence to technical specifications.

Universal Group for Engineering & Consulting (Maalem) – Resident Engineer (2008)

- Supervised construction of Iktaba Secondary School for Boys, ensuring compliance with drawings and standards.
- Managed reporting, inspections, and contractor coordination.

UNRWA – Resident Engineer (2007)

- Oversaw shelter rehabilitation and reconstruction projects ensuring timely delivery and quality compliance.

Dar Al-Amarah for Engineering Consultations – Resident Engineer (2006)

- Supervised daily operations for Balaa' Primary School ensuring accurate progress tracking and reporting.

Petramimar Consulting Engineers – Resident Engineer & Quality Control (2005)

- Managed redevelopment of Jamal Abdel Nasser Square (25,000 m²) including pavement and drainage design.
- Ensured compliance with urban infrastructure standards.

Dar Al-Amarah for Engineering Consultations – Supervision Engineer (2004)

- Conducted site supervision for Rehabilitation of Municipal Stadium project under CRS.

Al-Araj for Constructions – Project Engineer (2003)

- Supervised road projects covering earthworks, drainage, and asphalt works ensuring QA/QC compliance.

Amjad Harasheh Engineering Office – Supervision Engineer (2002)

- Oversaw construction of Qaffin Secondary Boys' School for the Ministry of Education.

Al-Nasser for Engineering & Constructions – Project Engineer (2000–2001)

- Managed multiple small- to medium-scale construction projects ensuring adherence to design and specifications.

Education

B.Sc. in Civil Engineering – Al-ISRA University, Jordan (2000)

Core Competencies

- Project Planning & Scheduling (Primavera, MS Project)
- Construction Supervision & Execution
- Quality Assurance / Quality Control (QA/QC)
- Health, Safety & Environmental Management (HSE)
- Cost Control & Budgeting
- Risk Management & Problem Solving
- Team Leadership & Staff Training
- Client & Stakeholder Coordination
- Reporting & Documentation
- AutoCAD, MS Office, and Project Management Tools

Certifications & Training

- Project Management Professional (PMP) – Ongoing
- AutoCAD Course
- Surveying and Road Design Course – Al-Najah University
- Safety Training Course – CESF Institution, Italy
- Safety Trainers Course – TSC Institution, Ramallah
- Public Procurement Law and Regulations

Professional Highlights

- Delivered over 25 successful infrastructure and building projects.
- Implemented effective QA/QC systems improving project efficiency and compliance.
- Maintained a record of zero safety violations during tenure as Safety & Environmental Manager.
- Consistently achieved on-time project delivery while meeting Gulf quality standards.
